BIK YOUTH 2018

In 2018 I was a participant in BIK Youth Panel. I was in Brussels, Belguim with other youths from all over the world. The topic of the Safer Internet Forum was "The impact of technology on children, young people and society". We splited in groups with 1-2 participants from the BIK Youth Panel and chose different topics for a discussion (ex. : "Fake News", "Article 13", "Safety", "How digital devices impact young people's lives?" and etc.) In each group there were 5-6 guests from other organisations. Each group had 10 minutes to discuss and then the people moved to a different group (exactly like the game "World café"). At the end we made summary of all opinions we've heard during these discussions. Then we played the video we created:
